

JAYANT KUMAR RAJPOOT

FULL STACK DEVELOPER

Pilibhit, UP | jayantkumar40146@gmail.com | LinkedIn | GitHub | +91-9756124292

SUMMARY

I am a motivated student in Computer Science & Engineering with hands-on experience in web development projects. I am eager to learn and implement new skills in a collaborative environment. With proficiency in technologies like MERN stack and a strong foundation in problem-solving and communication, I aim to contribute effectively to my future workplace.

EDUCATION

B.Tech in Computer Science & Engineering
SRMS CET, Bareilly | AKTU

Aug 2022 – May 2026

TECHNICAL SKILLS

- Frontend:** React.js, Next.js, HTML, Tailwindcss, JavaScript, Typescript
- Backend:** Node.js, Express.js
- Database Languages:** PostgreSQL, Mongo DB
- Soft Skills:** Problem Solving, Communication, Agile Collaboration
- Tools:** Git/GitHub, Postman, VS Code, PowerShell, Supabase CLI, Prisma

PROJECTS

SaaS Application | Full-stack | [Link](#)

Aug 2025-Sept 2025

- Image generating capabilities
- Content generation tools
- Resume review functionalities
- Integrated Clerk authentication for secure user management
- Cloudinary integration for efficient image handling
- MongoDB database for scalable data storage
- Docker containerization for streamlined deployment

Blogging Website | Full-stack | [Link](#)

Sept 2025-Oct 2025

- Full-stack blogging platform using React, Node.js, and MongoDB
- Image optimization with ImageKit reducing file sizes by 70%
- JWT-based authentication for secure admin access
- Real-time comment system implementation
- REST API design and integration
- Database schema creation with Mongoose
- Responsive UI development with Tailwind CSS and React Context

EXPERIENCE

Full Stack Intern – Aeologic Technologies

Jun 2025 – Aug 2025

- Gained hands-on experience across the entire web stack (frontend, backend, database, APIs) through real-world projects.
- Designed and implemented responsive, modular UIs using React.js, Next.js, and Tailwind CSS for optimal user experience.
- Built and integrated RESTful APIs with Node.js and Express.js, ensuring robust backend functionality and secure data flow.
- Managed CRUD operations and database schemas using MongoDB and Prisma, optimizing data efficiency and scalability.
- Refactored backend logic for performance and maintainability, applying clean architecture and modular design principles.
- Collaborated with cross-functional teams in agile sprints, contributing to faster delivery and better code quality.
- Strengthened expertise in version control (Git/GitHub), resolving advanced issues like secret scanning and history cleanup.
